EDUCATION

BSC IN COMPUTER SCIENCE
Lviv Polytechnic National University
08.2019 - 06.2023

- Worked with relational db in MS SQL Server (DDL, DML, functions, procedures, transactions, isolation levels, deadlocks, T-SQL)
- CRM full-stack SPA (expenses tracker). Front: vue, materialize, vuelidate, lodash. Back: firebase (authentication, realtime db, host)
- Full-stack SPA marketplace (sell and buy land in Ukraine) using real cadast data. Front: react, react-router, react-google-maps, react-paginate, swiper. Back: express, mongoose, nodemailer, jsonwebtoken, bcrypt, cloudinary, multer, postman. Database: mongoDB.

SIGMA SOFTWARE JAVASCRIPT PROGRAM (REMOTE)
Sigma Software
11.2022 - 04.2023

- Responsive landings (travelling, interior design) with API calls, styled with SCSS. Implemented Swiper.js for testimonials section.
- E-commece full-stack SPA (grocery store), styled with SCSS modules. Front: react, react-router, swiper.js, axios. Back: express, nodemon, mongoose. Database: mongoDB.

FRONT-END DEVELOPER (ONLINE COURSE)
JetBrains Academy
06.2022 - 07.2022

- To-do list with data stored in localStorage
- Landing using Bootstrap for a coffee shop
- Form managment - validation, events handling, localStorage history

EPAM FRONT-END PROGRAM (REMOTE)
EPAM Systems
01.2022 - 03.2022

- Git basics (push|pull|commit|init|status|rm|etc)
- Eslint for quality code
- Responsive landings development with animations (HTML, CSS/SCSS, JS/jQuery)
- Web pages with certain logic (rock-paper-scissors game, calculator)
